who as a Supreme Court Justice and member of the Appellate Dicision held that the testimony of a policeman in such cases was valueless.

I believed myself bound by the man-Justice Deuel. "I want to say too that the atmosphere while this case was on trial was very displeasing. There were the ears of the Justices. I don't think it best to say any more. If these clergynen want convictions why don't they bring the right kind of evidence?" Justice O'Keefe said he was sorry that

duty required him to vote for the acquittal of Green. There were many so who seemed interested in baving Green convicted that he would have liked to please, said Justice O'Keefe. Justice Mayo, who thought there was

evidence enough to convict Green, declined to talk about the case.

Patrick F. McGowan, former President of the Board of Aldermen, who lives at 224 East Twelfth street, said st night that the Gramercy Neighborg until it had made its part of town

"I don't know what Judge Deuel means when he talks about 'atmosphere.'" said i Mr. McGowan. "The court room was wded with ministers and teachers, some of the finest people I know-people who know from actual experience how had conditions are in the neighborhood

as applied to judges. It is shameful for as socialists. men on the bench to decide as those men did to-day. Our community is full of abows with evil women and debased men. The evidence of guilt in this Union will hold a meeting in a few days to take

positive action."
The Rev. Mr. Bachman when seen at Grace clergy house last evening said that the neighborhood represented by the association was determined to abolish nany disorderly houses

many disorderly houses.
"This acquittal is a sad disappointment," said Mr. Bachman, "but it won't discourage us. The association will be heard from at the proper time. We are under no delusion as to the magnitude of the task in front of us, but facts count in the long run though they may be discredited at first. I have never heard that social service had a particularly wasy road before it, but we are in this light to stay."

The Gramercy Neighborhood Asso something ought to be done to protheir young parishioners. Early in the association sent Patrick Flowan to see Commissioner Waldo request the Commissioner to act. Immaculate Conception without approached and annoyed. The implaint had been made by Protes-

The most remarkable feature of the stream, which national revenue. It is said that certain capitalists have deposited 800,000 france with the McQuarte, bankers of Paris, to secure than twelve hours. The river is in Caracas for a few days and shares of the Bank of Venezuela have fallen 30 points.

Was in charge of the building.

The most remarkable feature of the earthquake was the drying up of the carbon the sough at the crossing, saw the horse coming and herded the children over to the southwest corner of Twenty-third street and Tenth avenue. He had them out of the water's back into the mother stream.

The lack of water caused the deaths of great quantities of fish, crabs and other water denizens. The river now is trapht for the children. The policeman met the horse before it reached the southwest corner of the Street that corner and ran from the north-east to the southwest corner of t

Men on Irish Railways Couldn't Get Back
See They Stayed Out.

Special Cable Despatch to The Syn.

Dublin, Sept. 28.—The strike on the Irish railroads is not ended. The men voted to accept the terms offered by the railroad company and return to work.

The companies refused to reinstate the strikers.

Thereupon the Amalgamated Society of Railway Servants held a meeting and decided that the strike should continue.

Its former size.

Meanwhile every available person for miles around who is not engaged in repairing the wrecked buildings, has been windows screamed to their children suring the street. Women from tenement windows screamed to their children scurrying for cover like rabbits.

Halfway down the block was an open cellarway. The horse missed the opening but the policeman's body slipped through. Several other earthquakes recently have been reported in Costa Rica. One in the Chiripo mountains, supposed to have been caused from the volcano near the Toro Amarillo, was accompanied by frightful rumblings, but so far no other damage of a serious nature is reported.

#### I But they are not just twenty dollar suits. They are Saks twenty dollar suits. That is a fine distinction, perhaps, but one which comparison makes obvious.

Twenty Dollar Suits for Men

at Saks'

A Saks twenty dollar suit has only one thing in common with the average twenty dollar suit—and that is twenty dollars. There the comparison ends. We have never dealt in averages. Ours is a specialty business, and averages cannot be specialized.

Now, anybody can make a twenty dollar suit for twenty dollars. But our task has been to produce a twenty dollar suit that looks like thirty-five dollars. In other words, we have taken the twenty dollar bill and given it a university education.

We have shown the twenty dollar man that the limitation of his expenditure for a suit does not mean a corresponding limitation in style and fit. We have shown, in fact, that a twenty dollar bill will buy a suit at Saks' which a fifty dollar man might wear with pride and satisfaction.

At twenty dollars, we have implacable blacks, charming blue cheviots, worsteds, velour finished cassimeres, fancy mixed cheviots and cassimeres, all in at least ten different and distinctive models. These include not only conservative styles, but also those leisurely English effects which are the distinguishing sartorial characteristic of a leisurely people, and which are best interpreted by us.
